SUBJECT: MeCMS January 21, 2008 Repair Bundle

Attached, please find a copy of a Project Overview that summarizes the changes that will be initiated with the repair bundle that is scheduled for MeCMS for January 21, 2008. The initiative includes changes that will increase accuracy for some issues regarding Cost of Care, Copayments, Modifiers, and certain issues identified to cause Claims Edits Processing Failures (EPF).

We do not anticipate that this initiative will result in changes to how providers submit claims to MaineCare. We do however expect that more claims will be paid with greater accuracy in their first submissions.
